4. The above note gives a brief history of the situation

The conditions in the K.G.F. as in all mining areas are peculiar & are radically different to those prevailing in ordinary areas. The labour employed on a mine like the K.G.F. is largely recruited from the surrounding Districts and is drawn from the lowest strata of society. They are a desperate lot and have no great respect for law. The standard of discipline to be adopted in these Camps has necessarily to be stiffer than that applicable for the rest of the Community.

Again, the adoption of special measures is justified by the magnitude of the operations of the undertaking & the necessity of protecting the interests of large numbers of Coolies

Statement of Objects and Reasons.

******

It has been represented that the provisions of section 17 of the Mysore Mines Regulation, 1906, has been operating as a hardship from the point of view of the person to whom notice is given to quit the mining area, in as much as the term "undesirable" is not defined in the Regulation, no limit is laid down as to the period during which an order under the section should remain in force and no previous enquiry is prescribed nor any provision made to intimate to the undesirable the nature of the charge against him A resolution pointing out the said hardship and recommending its abrogation was moved in the Legislative Council Session of June 1925 by Mr. B.Narasinga Rao, who withdrew the resolution on the assurance of the Dewan President that all interests would be considered and final orders passed. The matter has been carefully considered by Government and it is proposed to amend sectio

REGULATION No. IX OF 1914.

(Received the assent of His Highness the Maharaja on the 20th day of August 1914).

A Regulation to amend the Mysore Mines Regulation, 1906.

Whereas it is expedient to amend the Mysore Mines Regulation, 1906: His Highness the Maharaja is pleased to enact as follows:- Preamble.

Substitution of a new section for section 17.

1. The following shall be substituted for Section 17, viz.-

"17. The Superintendent of Police for the Kolar Gold Fields may, by order in writing, direct any person, whose residence within such area as may be notified by Government from time to time is considered undesirable to quit the said area within twenty-four hours and such persons shall not, after the lapse of the said time, remain at or re-enter the said area without the permission of the said Superintendent of Police. Liability of undesirable person to be ordered off any mine or cooly colony.

An Order passed under this section may be cancelled by the Superintendent of Police or by the District Magistrate."

Amendment of Section 18.

2. The last sentence of Section 18 beginning with the word "any" and ending with "19" shall be omitted.

Amendment of Section 19.

3. In Section 19 of the said Regulation, for the words "an offence" in the first line, the words "any act prohibited" shall be substituted.

The suggested amendments deal with the protection of ~~the~~ Mining property and in particular designed to hamper the illicit trade in Kolar gold which is admittedly very extensive. The restrictions proposed are on which have been followed in Australia and the Transvaal and a in my opinion, sound and feasib I have had this matter under consideration for some considerab

OFFICE OF THE FIRST MEMBER OF COUNCIL.

NOTE

Dated.... 25th...June.....*192* 5.

With reference to the resolution moved by Mr. B. Narasinga Rao at the recent session of the Legislative Council for the abrogation of section 17 of the Mines Regulation, a draft letter to the Inspector-General of Police may put up requesting him to ascertain and report (1) whether before giving notice to the undesirables to quit the mining area under the above-mentioned section, any preliminary enquiry was made by the Superintendent of Police and the parties concerned given an opportunity of showing cause why an order under the above section should not be passed against them; and (2) how the term "undesirable" is understood and what are the classes of people which are considered by the Police to come under this definition so as to justify action being taken against them.

2) The Inspector-General may also be asked to favour the Government with his opinion, in consultation with the District Magistrate of Kolar, the D.S.P. of the Kolar Gold Fields as well as the Mining Board as to whether the power of warning off undesirables from the mining areas may not be vested in the Special Magistrate Kolar Gold Fields instead of the Police as at present.

23 Section 17 of the Mines Regulation (as amended in 1914) runs as follows:-

~~The following shall be substituted for Section 17 viz:-~~

"17. "The Superintendent of Police for the Kolar Gold Fields may, by order in writing, direct any person whose residence within such area as may be notified by Government from time to time is considered undesirable, to quit the said area within twenty four hours and such person shall not, after the lapse of the said time, remain at or re-enter the said area without the permission of the said Superintendent of Police.

Liability of undesirable person to be ordered off any mine or cooly colony.

An order passed under this section may be cancelled by the Superintendent of Police or by the District Magistrate."

24) In the June Session of the Legislative Council in 1925 Mr.B.Narasinga Rao moved a resolution recommending that steps may be taken to repeal the above provision. The main grounds urged in -- support of the proposal were the following:-

(i) The term "undesirable" is not defined in the Regulation and it is not known when, under what circumstances and on what grounds the residence of any individual would be considered undesirable;

(ii) No limit is laid down as ~~the~~ to the period during which an order passed under the section should remain force;

(iii) No previous enquiry is prescribed and there is no provision to intimate to the undesirable the nature of the charge ~~or information~~ against him;

WD 1264—GPB—40,000—17-12-25

Serial No.

(iv) No opportunity is given to the man to meet the accusation against him and he is condemned without a trial;

(v) The appeal provided to the District Magistrate gives no real relief, as even then the appellant has no chance of knowing the accusation against him and as the District Magistrate on a perusal of the Superintendent's report accepts the latter's opinion.

25) In the course of the discussion on the resolution, the First Member of Council said that there was some force in the statement of Mr.Narasinga Rao that the absence of any definition of 'undesirable' in the section is likely to create some amount of hardship and that the question of making the provision more definite by defining the nature of the undesirability which will render a person liable to be brought under it would receive careful consideration of Government. Regarding the other points suggested, viz., vesting the power of warning off ~~undesira~~ undesirables in a Magistrate instead of the Superintendent of Police and the giving of a previous notice to the person concerned to show cause why he should not be warned, the Member said that Government would be prepared to consider the matter and take such action as may be necessary to mitigate the hardship brought to notice.

26) The Dewan finally said that all interests concerned would be considered and final orders passed, and on this assurance Mr.Narasinga Rao withdrew his resolution.

WD 01264—GPB—40,000—17-12-25

Serial No.

27) Mr.Narasinga Rao having himself said that he would be satisfied if the power of warning off undesirables is entrusted to the Special Magistrate, Kolar Gold Fields who should be asked to give notice to the person complained against and hear him beforehand, there is no need to consider the question of repealing the provision. The point for consideration is what amendments are necessary in Section 17 of the Regulation to remedy the defects pointed out therein.

28) Under the orders of the First Member, enquiries were made of the I.G.of Police in regard to

(i) What are the classes of people who are taken to come under the term 'undesirable';

(ii) Whether, before issuing a notice to quit, any preliminary enquiry is held by the Supdt. of Police and the parties given an opportunity to show cause why an order under the section should not be passed against them; and

(iii) whether the power of warning off undesirables may not be entrusted to the Special Magistrate, K.G.F.

29) In reply, the I.G.of Police has stated that the term 'undesirable' is taken to include the following:-

a. All persons who have convictions for theft or receiving of mining material;

b. Under-ground gold thieves and those against whom there is such grave suspicion that they are stealing or receiving mining material or associates of such, as amounts to moral conviction;

WD 01264—GPB—40,000—17-12-2

Serial No.

c. Persons against whom there is strong presumption that they are recovering gold from coolies working on the Mines;

d. Disorganisers of labour;

e. Persons who for good reasons, the Superintendents of the Mines do not want on their properties.

(This latter definition is said to refer only to particular mines and not to the area in general).

30) It is stated that a preliminary enquiry is held by the Superintendent of Police before the issue of a notice. It is not however stated that the party is given opportunity to show cause why a notice should not be issued against him.

31) In regard to the vesting of the power in the Special Magistrate, K.G.F., the I.G. of Police states that at the meeting of the K.G.F.Mining Board at which himself, the D.C.Kolar and the Superintendent of Police, K.G.F. were present, it was unanimously held that the power of warning off undesirables should not be vested in the Spl. Magistrate, but should remain with the Supdt of Police and ~~that~~ that if the power were to be vested in the Magistrate, the provision might be abrogated altogether as the procedure will only result in a deadlock. A relaxation has however been proposed in respect of bona-fide Kandayam paying raiyats who are subjects of His Highness, viz. that the notice in their case need be in force only for six months, subject to the issue of a further notice if necessary.

Serial No.

32) While speaking on the scope of the term 'undesirable' the I Member said that it ~~was~~ 'was not intended by Govt that the section should be employed indescriminately against all persons' and that 'the intention evidently was that the section should be applied only to persons who had no means of livelihood and employment and who were therefore considered to be a danger to the Menon'

Subd with reference to Member's obsn in para 21.

33) As the D C & Kollam, the S.S.P as well as the Kollam Planning Board are all opposed to the power of warning & order being taken away from the DSP and vested in the Spl Magte. I think we may drop this proposal in deference to their unanimous opinion

34) I think however, that with a view to guard against the arbitrary exercise of the power of the DSP and to give the public a feeling of security, it is necessary that ~~the~~ we should impose the term 'undesirable' and also that we should provide for the DSP giving notice to the 'undesirable' to show cause why he shd not be warned off the fields before an order to that effect is issued

46) I have gone through the papers.
The Hon'ble Member was of opinion that the term 'undesirable' should be defined, that notice to show cause why an order under Sec 47 should not be passed, be given, a preliminary enquiry should be held by D.J.P before an order in writing directing an undesirable person to quit the area of that is issued, that in emergent cases D.J.P may pass an order without notice being issued to show cause but such order should be in force for a period of 30 days.

A draft is being prepared & submitted.
It is difficult to give a correct defn of undesirable.
In cases of this nature a certain discretion shd be vested in D.J.P who has to safeguard the interest of K.G.F. Co. in deciding who in his opinion, is an undesirable.
Hence the clauses II & III, have been so drafted.

BILL TO AMEND THE MYSORE MINES REGULATION.

---

(12) Under Section 17 of the Regulation, the Superintendent of Police, Kolar Gold Fields may direct any person whose residence within such area as may be notified by Government from time to time is considered undesirable, to quit the said area within 24 ~~years~~ hours.

2. It has been represented that the provisions of this section have been operating as a hardship from the point of view of the person to whom notice to quit is given, in-as-much as the term "undesirable" is not defined, no limit is laid down as to the period during which an order under the section should remain in force and no previous enquiry is prescribed nor any provision made to intimate to the undesirable the nature of the charge against him. A resolution recommending the abrogation of the section was moved in the Legislative Council in June 1925 by Mr.B.Narasinga Rao, who withdrew the resolution on the assurance of the Dewan - President that all interests would be considered and final orders passed. It was also urged at the Legislative Council that the power of warning off undesirables may be entrusted to the Special Magistrate.

3. From enquiries made of the Inspector General of Police it is ascertained that the term "undesirable" is taken to include persons who have convictions for theft

or receiving of mining material, under ground gold thieves etc. A preliminary enquiry is also held by the Superintendent of Police before issue of notice but it is not stated if the party is given an opportunity to show cause against issue of notice. In regard to vesting the power in the Special Magistrate, the Inspector General of Police says that at a meeting of the Mining Board at which he and the DeputyCommissioner were present it was unanimously held that if the power is transferred to the magistrate the provision might be altogether abrogated as the procedure will only result in a deadlock.

The power will however continue with the Superintendent of Police subject to these safeguards. The opportunity has also been taken to amend another section of the same Regulation so as to empower the Kolar Gold Fields Sanitary Board to write off irrecoverable sums due on account of ~~irrecoverable~~ taxes.

Final Note by the Third Member of Council.

Subject:— BILL TO AMEND THE MYSORE MINES REGULATION, 1906.

Section 17 of the Regulation empowers the Superintendent of Police, K.G.F., to direct any person whose residence within such area as may be notified by Government from time to time, is considered undesirable, to quit the said area within 24 hours.

A resolution recommending the abrogation of this Section was moved in the Legislative Council in June 1925 by Mr. B. Narasinga Rao in order to remove the hardship caused by the provisions of this Section and the main grounds urged by him were -

(i) that the term 'undesirable' was not defined in the Regulation,

(ii) that no limit was laid down as to the period during which an order passed under the Section should remain in force, and

(iii) that no previous enquiry was prescribed nor any provision made to intimate to the undesirable, the nature of the charges against him.

He, however, withdrew the resolution on the assurance given by the Dewan-President that all interests would be considered and final orders passed.

After careful consideration it is proposed to amend Section 17 with a view to remove the hardship complained of. The main features of the amendment are -

(i) It provides for giving an opportunity to the undesirable to show cause against the notice to quit except in urgent cases.

(ii) The order to quit will have effect only for six months in the case of a subject of His Highness the Maharaja paying kandayam, subject to a further order, if necessary, after that period.

(iii) The expression 'undesirable' is defined.

Incidentally it is also proposed to amend Sub Section (2) of Section 35 of the said Regulation so as to empower the K.G.F. Sanitary Board to write off irrecoverable sums due on account of taxes, in regard to which difficulty was felt in some cases.

A draft Bill to amend the Mysore Mines Regulation as above has been prepared and it has been agreed to by the Dewan and the Members of Council.

My dear Mirza,

80) In returning herewith the file relating to the amendment of the Mysore Mines Regulation, 1906, might I suggest the advisability of consulting the Mining Board formally on the matter before the Bill is introduced? I see that the matter was discussed with them in 1925, but they may have forgotten that and might be alarmed at the sudden introduction of legislation which a formal notice would show them was what they had agreed to.

Final Note by the Third Member of Council.

W **Subject :—** BILL TO AMEND THE MYSORE MINES REGULATION.

Pages 24 & 25 Office Notes — Page 28 of do — G

I beg to invite reference to my Final Note of the 8th March 1928 explaining the objects of the proposed Bill to amend the Mysore Mines Regulation. As suggested in the demi-official letter of the 13th idem from the Private Secretary to His Highness the Maharaja, a copy of the Bill was forwarded to the Mining Board with a view to obtain their further views on the matter and a copy of the letter which the Secretary to the Board has sent to the Inspector General of Police in this connection is herewith submitted for perusal. It will be observed that the Board accept the general principles underlying the Bill and desire only a few minor alterations to be made in it. With the exception of the omission of the words "for reasons to be recorded in writing" in Clause 3, the suggestions made by the Board are unobjectionable and may, I think, be adopted. As regards Clause 3, it provides for the Superintendent of Police recording his reasons in writing for directing any person to quit the notified area under that clause. No exception can be taken to this provision which is necessary, if for no other reason, to enable the District Magistrate to deal with the appeal if an appeal is preferred against such an order. I am therefore of opinion that this Clause may be retained in its present form. His Highness' gracious sanction is solicited for placing the Bill, with the other alterations suggested by the Mining Board, before

the

the Representative Assembly and introducing it in the Legislative Council in due course.

Copy of letter dated 2nd November 1930 from Mr. K. Chengalraya Reddy, B.A., B.L., Kyasamballi P.O., (Via) Coromandel, to the Secretary, Legislative Council.

" I wish to inform you that the proposed amending bill to the Mining Regulation which the Government wish to introduce, lamentably fails to meet the situation and that it cannot meet the approval of the majority of non-official members of the Council. While it may be claimed to be a slight improvement, at best it will be only a case of from the fire into the frying pan! I shall be glad to present our reasoned objections to the proposed amendment and the particular section in the original bill, which is sought to be amended in the form of a memorandum shortly."

6 Sub-clause (7) which lays down that an order under this section may be cancelled by the D.S.P or by the Dist Magistrate this perhaps needs his objection

It also suggests the clubbing together of Sub-clauses (4) & (5) into one sub clause. This may perhaps be done.

Mr. Rutherford is of opinion that the Bill is a reasonable one & relaxes the rigour of the original Regulation. He however thinks that the matters falling under items (c) & (e) of the explanation to Sub-clause 7 are for the D.S.P. Magistrate to decide in conjunction with the Dist Mining authorities

Mr. R. Chingalaraya Reddi also considers that the wording of these items leaves room for great misuse of power though it may not mean ever the intention He wants that the definition of an undesirable person be more exact and the measure they should be

therein.

As at the meeting of the Legislative Council in June 1930 some members represented that the amending Bill would not be unwelcomed, the Second Member of Council directed that opinion of the members of the Council in regard to this Bill may be sounded informally. The opinions of the members of the Legislative Council were called for. Only six members have sent in opinions.

1. Mr. K.T. Satyanarayana Setty.-

He wants it to be placed before the Representative Assembly. He does not offer any opinion.

2. Mr. G. Girimaji Rao.-

(a) Magistrate to make the order,

(b) Omission of emergency powers without notice, and

(c) Appeal to the High Court.

3. Mr. K. Chengalaraya Reddy.-

(a) Affects fundamental rights of a citizen,

(b) Ordinary law of the land is sufficient,

(c) Judicial enquiry is subsequently necessary,

(d) The word " Undesirable" should be exhaustively defined,

5. Rajasabhabhushana K.R.Sreenivasa Iyengar.-

(a) the order under clause (4) should be an ad interim one and a final order should be passed after enquiry, and

(b) appeal to the District Magistrate should be allowed.

Serial No.

Extract from Members orders dated 31st July 1930 in Legis.File Re. amendment of the Mysore Mines Regulation.

'At the last meeting of the Legislative Council several members spoke about some amendments of certain sections of the Mines Regulation and it looked as if they would like the amending Bill which was placed in June 1929 before the R.A. and not approved by that bod to be proceeded with. It would perhaps be well to sound opinion informally and the members consulted accordingly."

In accordance with the above order opinions of non-official Members of the Legislative Council was invited in this office No.P.1450-80 dated 10-9-1930.

Copies of the Bill were forwarded to them and it was stated that Government will have no objection to introduce the Bill in the Legislative Council, if the general opinion is that it would meet the reasonable requirements of the situation.

In response to the invitation only six members have sent in opinions.

1. Mr.K.T.Satyanarayana Setty.

He wants that the Bill should be placed again before the R.A. and gives no opinion on the Bill provisions.

2. Mr.G.Girmaji Rao.

He wants that the order to remove should be given by a magistrate, that the exercise of emergency power without notice should be deleted and that there should

be an appeal to the High Court.

Mr.K.Chengalvaraya Reddi.

He is of opinion that the ordinary law of the land is adequate. He however opines that if ~~in~~ case a special provision is deemed necessary as in the Bill, a subsequent Judicial enquiry in the case of orders should be provided for and that the vague and uncertain words in the definition of 'undersiable' should be removed and the section must be made to apply to dangerous ~~goonas~~. Mr.Rutherford supports the Bill in general and considers that too much responsibility is thrown on the D.S.P.

Rajasabhabhushana K.R. Srinivasa Iyengar.

He desires that the order under Sub Clause (4) should be an ad-interim one and a final order can issue only after enquiry.

Mr. Bagamane Dave Gowda.

He is of opinion that the order should be by a Magistrate. He further suggests that the theft under clause (a) of Explanation should be in respect of mining material of value and the loss under clause (e) substantial.

In the light of these views it is for order whether the Bill requires any revision and the Bill may be amended brought before the Legislative Council.

Any slight amendment of the bill in the light of the opinions now received will be deemed inadequate by one section of non-Officials.

On the other hand, if an attempt were made to meet their wishes more fully, the authorities of the Mining Board would be naturally be dessatisfied. The conditions on the Mining Area are becoming more and more difficult and it is inexpedient at the present time to place any restriction on the existing powers of the local officers to deal with undesirable ~~powers~~ persons.

The question may therefore be dropped for the present.

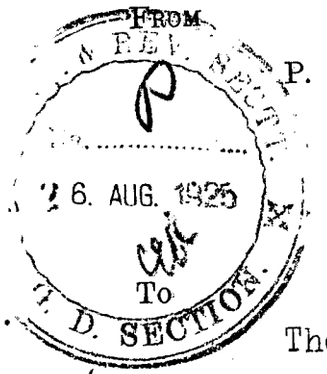
OFFICE OF THE
INSPECTOR-GENERAL OF POLICE IN MYSORE,

Dated, Bangalore, the 25th Aug. *1925.*

FROM

P. F. BOWRING, ESQ., J.P.,
INSPECTOR-GENERAL OF POLICE IN MYSORE,
BANGALORE CITY.



To

The Secretary to the Government of Mysore,
Revenue Department.

SIR,

With reference to your letter No.P.22/Pol.dated the 3rd July 1925, I have the honor to state that a meeting of the Kol~~ Gold Field Mining Board, the Deputy Commissioner of the Kolar District, the Special Superintendent of Police, Kolar Gold Fie and myself, was held at Oorgaum on the 3rd Instant, to conside the resolution moved by Mr. B.Narasinga Rao at the recent Sess of the Legislative Council regarding Section 17 of the Mines Regulation and your letter on the subject. It was ascertain that a preliminary enquiry is always held by the Superintenden of Police before the issue of a notice under Section 17 of th Mysore Mines Regulation. A sample form of notice to show ca is enclosed for perusal.

If however in the opinion of the Superintendent of Pol the evidence is prima facie clear a notice is not issued. Th would only be in cases where a person had many convictions for stealing gold and was very well known to the Police. The following persons are deemed to be "undesirable

1. All persons who have convictions for theft, or receiving of mining material,

2. Under ground gold thieves and those against wh there is such grave suspicion that they are st or receiving Mining material or associates of as amounts to moral conviction,

ner

4

3. Persons against whom there is strong presumption that they are receiving gold from Coolies working on the Mines,

4. Disorganizers of labour,

5. Persons who for good reasons, the Superintendents of the Mines do not want on their properties.

This latter definition refers only to particular Mines and not to the area in general.

At the meeting held on the 3rd we were all unanimously of opinion that the power of warning off undesirables should not be vested in the Special Magistrate of the Gold Field, but, should remain with the Superintendent of Police. It was felt that if the power were vested in the Magistrate it might as well be abrogated altogether as it would only result in a dead lock. It was however thought that in cases of bona fide Kandayam paying ryots, subjects of His Highness, the notice if served on one of such, need only be in force for a period of six months but if found necessary a further notice may be served on the same person on other persons however it should be absolute as before.

I enclose for information sample form of notice to show cause, the notice itself, and the History Sheet Form.

I have the honor to be,
Sir,
Your most obedient servant,

Inspector General of Police.

Dear Sir,

With reference to the Correspondence ending with your letter No. C-23/25 dt. 25th August 1925, I am desired to forward herewith a copy of the Bill to amend the Mysore Mines Regulation. It is proposed to place this measure before the next Session of the Rep. Assembly and introduced

referred to below.

4. I presume the idea is to replace the whole of Regulation III of 1897 by a new Regulation embodying all its provisions with amendments. I have therefore added a repealing section which I have provisionally numbered 1A.

5. Section 2. The use of the restrictive word "means" and of the extensive word "includes" in conjunction is erroneous, and though not uncommon in earlier enactments has bee discarded in later legislation. Hence the changes in this respect in certain of the definitions.

6. I have redrafted section 3 in order to save once for all the repetitions as to local extent in the subsequent sections.

7. In section 9, I have omitted the word "summary", as the exercise of summary powers of trial and conviction requires ~~as~~ special investiture under the Criminal Procedure Code.

8. To the list of offences a second conviction of which entails the punishment of whipping under the existing Regulation, I have added the offences under the new section 11. -- Whipping seems unsuitable in the case of offences under sections 9 and 10. The reference to the general section 12 in -- your draft is, I presume, an error.

9. Without expressing any opinion as to the necessity or otherwise of so drastic a provision as is embodied in sections 15 and 16, I may say that it seems inexpedient to bring under section 15 persons merely present at the seizure of property, when they can be dealt with under section 16. A person convicted under section 16 is liable to a comparatively light scale of punishment under section 19; whereas one convicted under section 15 is exposed to the higher scale of penalties prescribed in section 12. This distinction seems fair enough if my suggestion to leave out the words "found in or upon" from

section

section 16 is accepted.

10. Vide my marginal remark against the word "undesirable" in section 17.

11. Section 21. The source from which the reward is to be paid is not clear. I presume, the gold or mining material confiscated will be sold to a mining company and that the sale proceeds will be available for the purpose of paying the reward. But how, if a mining material finds no immediate purchase?

12. I do not find in your draft the provisions of the remaining sections (11 to 33) of the existing Regulation. These have also to be embodied in the revised measure to be passed in lieu of the former. I shall be glad to know if you have any alterations to suggest in them; I may add here that we sent, in December last, to the Residency a draft Regulation for amending sections 11 and 14 of Regulation III of 1897. (Vide copy appended.) The sanction of the Government of India thereto is awaited. But these amendments may as well go at once into the new draft.

13. Sections 25, 26 and 33 require a few slight amendments, to provide expressly for empowering the Sanitary Board to make bye-laws and for the punishment of breaches of such bye-laws. But this ~~part~~ matter will be attended to when the draft is finally referred to the Legislative Department for action.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Secretary.

A Draft of

A Regulation further to amend the Mysore Mines Regulation, 1897.

Preamble. Whereas it is expedient further to amend the Mysore Mines Regulation, 1897; His Highness the Maharaja is pleased to enact as follows:-

Addition of sub-section (2) to section 11 of Regn.III of 1897.

1. To section 11 of the Mysore Mines Regulation, 1897, the following shall be added as sub-section (2), namely:-

"(2) The Government may also prescribe rules to provide for the proper discipline of the persons employed in or about the mines or in mining operations, and for the prevention of misconduct on the part of such persons."

Insertion of certain words in section 14 of Regn.III of 1897.

2. In section 14 of the said Regulation, after the word "rupees," there shall be inserted the following words, namely:-

"or, in the case of any contravention of, or non-compliance with, a rule prescribed under sub-section (2) of section 11, to imprisonment for a term which may extend to three months, or to fine which may extend to five hundred rupees, or to both."

Draft. I

corresponding sect. of Regn. III. of 1897 (GS 1.3.05)

Proposed Amendments to the Mysore Mines Regulation III of 1897

Power to search.

offence under this Regulation is reasonably suspected to have been committed.

New -

I would omit the words "found in or upon, or" since persons only present at the seizure of property can be proceeded against under the less drastic section 16.

Liability of occupier etc. of premises in regard to unwrought gold or mining material seized therein ..

16~~15~~. Any person ~~found in or upon~~, ~~or~~ being the reputed tenant or occupier ~~x~~ of any premises at the time when any unwrought gold or mining materials reasonably suspected of being stolen or unlawfully obtained is found thereon and seized by any Police Officer, shall be deemed to have been in possession of such unwrought gold or mining material until he proves the contrary.

Within the meaning of sections 5 or 11, as the case may be,

New

Liability of person present, when unwrought gold or mining material is seized on premises.

17~~16~~. (1) Any person who is charged before a Magistrate with being on any premises at the time when any unwrought gold or mining material, reasonably suspected of being stolen or unlawfully obtained, is found and seized by any Police Officer, and who is unable to satisfactorily account to the Magistrate for his presence there, shall be liable on conviction to the penalties provided in section 19.

(2) Any person may be convicted under this section notwithstanding that no charge is laid or conviction ~~he~~ obtained against the tenant or occupier or reputed tenant or occupier of the premises under section 16

New

17. Any unemployed person who shall have been ordered off a mine by an order in writing signed by the Superintendent of the mine and who subsequently to such order reenters upon the mine without the permission of the Superintendent and any undesirable person who is not employed at any mine and who has been directed by an order in writing signed by the Superintendent of Police to vacate a Government cooly colony and who subsequently to such order returns to a Government cooly colony without the sanction of the Superintendent of Police shall be liable on conviction before a Magistrate to the penalties provided in section 20.

Unemployed persons may be ordered off any mine or cooly colony.

Vague. Who is an "undesirable" person? We might omit the word 'undesirable' altogether

New

19 18. No hawker or pedlar shall carry on his business within any area included in a direction under section 3 without a license in writing obtained for that purpose from a Magistrate of the 1st class. Licenses shall be issued subject to such conditions and the levy of such fees as Government may prescribe. Any person carrying on such business without such license shall be liable on conviction before a Magistrate to the penalties provided in section 20.

Licenses required for hawkers &c.

New - 19. Any person committing a breach of any of the provisions of sections 16, 17 and 18 ~~of this Regulation~~ shall be liable on conviction to a fine not exceeding one hundred rupees or ~~to~~ imprisonment of either description for a term not exceeding three months, or ~~to~~ both.

Penalty for breach of sections 16,17 and 18.

New 20. All offences under sections 4,5,6, 9,10,11,15,16,17 and 18 of this Regulation shall be cognizable by the Police.

Cognizability of offences by the Police.

New 21. Any Magistrate ordering the confiscation of any gold or mining materials ~~seized within any area specified by the Government of Mysore under section 3 of this Regulation~~ may grant a reward not exceeding the value of the gold or mining material confiscated, in such proportion as he may think fit, to any person or persons, not being a police officer, who may have contributed to the seizure of the gold or mining material or to the conviction of the offender.

Payment of rewards.

What is the reward to be paid out of? the sale proceeds of the gold?

Dear Sir,

Recd 10-9-1930

With reference to the letter No 1450-80(1) Legis
Sent from the General and Revenue Secretariat
and the accompanying copy of the General
principles of the Bill further to amend the Mysore
Mines Regulation, 1906, and asking me to furnish
my views in the matter etc., I beg to state that
instead of placing the bill in the Legislative
Council for consideration, before doing so in the
Representative Assembly, the said amended bill may be
placed before the October Session of the R.A. again
for views of the members thereon obtained.
I am of opinion that, after the expression of
views in the matter of the popular house,
I will be better able to express our views
in the matter of the Legislative Council.

35

Moreover, I should think that

procedure will be quite in conformity with the Regulations. I should frankly state that the Government should avoid as far as possible the introducing of any bill in the Legislature Council before such a bill has been introduced in the popular house (R.A.) and when therein elicited. As for my individual views, I shall be in a better position to express them after getting a reply to this letter.

Kolar,
15th September 1930.

Dear Sir,

In reply to your kind letter No. J. ~~1456~~ 1450.80(1) Leg dated Bangalore 10th August 1930 (but letter actually posted on 10th September 1930). I beg to say as regards the need of relaxing the rigour of the provisions of the mines regulation under which undesirable persons are removed from the Kolar Gold Fields that for Section 17 of the Regulation the following shall be substituted:

"17(1) The Superintendent of Police for the Kolar Gold fields may move the Special Magistrate who may by an Order direct any person, whose residence within such area as may be notified by the Government from time to time is considered undesirable, to quit the said area within 24 hours and such persons shall not after the lapse of the said time, remain in or enter that area without the permission of the said Magistrate.

(2) Before making an order under subsection (1) the Magistrate shall

(a) cause a notice to be served on the person concerned, in the manner provided in chapter VI of the Code of Criminal Procedure for the service of summons, indicating why his presence in the area specified therein is considered undesirable and calling upon him to show cause within the period fixed in the notice why he should not be directed to quit the said area, and

(b) record his objection and the evidence in support of it, if any, he may offer.

(3) Where the person against whom an order is made under this section after an enquiry as provided in such section (2) considered undesirable and if he is a subject of His Highness the Maharaja owning land assessed to Land Revenue or paying any tax or rate to the Government or to any local authority, the order shall be in force for a period of six months only provided that this period may be extended from time to time by further orders passed after fresh enquiry in conformity with the procedure laid down in subsection (

1537

(4) Every order made under this section shall be in writing and shall contain a statement of the reasons therefor.

(5) An order made under this section shall be appealable to the High Court by the aggrieved party.

Explanation:

No person shall be deemed to be an undesirable resident for the purpose of this section unless-

(a) He has ~~xxxxxxxxx~~ previously convicted of-

(i) an offence punishable under section 13 of this Regulation, or

(ii) theft of mining material or dishonestly receiving or retaining stolen mining material, or

(b) There is grave suspicion of his complicity in committing theft or dishonestly receiving or retaining stolen mining material, or

(c) He is a known disorganiser of labour, or

(d) He has no ostensible means of subsistence, or

(e) His presence on the Kolar Gold Fields may otherwise be a source of danger or loss to the gold mining Industry".

2) The addition to sub section (2) of section 35 of the Regulation may be obtained.

I beg to remain,
Dear Sir,

Your most obedient servant,

Dear Sir,

I thank you for yours No.1450-80 of 10th inst,asking for an informal expression of my views with reference to the proposed Bill to amend the Mysore Mines Regulation 1906.

Mining regulations cannot follow the ordinary legal pro--ceedure and special laws to meet certain conditions are necessary as in the case of other areas leased out for a specific purpose & therefore those who wish to reside or visit such areas must be bound by regulations made to meet these conditions. This being so I can see little that can be objected to in the proposed Bill by anyone who has honest intentions,except possibly that the bill throws too much responsibility in the hands of one man,ie,the Superintendent of Police,especially as he is also given jurisdiction over such persons as come under (c) & (e) of EXPLANATION,which appear to be matters for dealing with by the Special Magistrate in conjunction with the Police and Mining Authorities,never-the -less I think bill is reasonable & relaxes the rigour of the original Regulation.

Dear Sir,

Your office D.O letter No. P.3491-35.17. d/22nd inst. Calling attention to D.O. letter No. P. 1450-80 dated 10th Sept last, enclosing draft Bill for amending Mines Regulation for my opinion; and I beg to suggest as under:—

1. In Sub Sect. 1, the Power may be vested in the Special Magistrate instead of the D.S.P. so as to allow the proceedings to be more legal.

2. In clause (a) (ii) of Sub Section 4, the Imposition or retention of Mining material may be very insignificant or of no value. It may therefore be provided to apply only to the materials of value.

3. In Clause (c) of Sub Sect. 4, there must be Scope for Considering the intention of the man, who may be called, "a disorganiser of labour."

4. In Clause (e) of the same Sub Section, the word "Substantial" may be inserted before the word "loss."

Unless the Bill with the above alterations, is introduced, it will not, in my opinion, Satisfactorily improve the provisions of the original Bill, so as to give the necessary help to the Public, the object with which the amendment was sought.

Yours Sincerely
Bagamane Devagowda

Dear Sir,

~~18~~ 50

Note on the draft Bill to amend the Mysore Mines Regulation received with the Chief Secretary's letter No.3904-6 (2) /Legis. dated 6th January 1931.

-ooOoo---

I As the Bill is now drafted, a final order of eviction can be passed by the Superintendent of Police against an undesirable for a period of one month without giving him any opportunity to show cause against the order. While recognising the need for prompt action to evict a person from the mining area in public interests, I consider that any such action must be only in the form of an ad interim order, subject to any final orders that may be passed later after proper enquiry, and that no final order of eviction for however short a period should be passed without an enquiry, as it is one of the ~~fundamental~~ elementary principles of ~~law~~ justice that no man should be condemned exparte without notice. I would therefore suggest that sub-clauses (4) & (5) may be modified somewhat as follows:-

" ~~Where~~ owing to the difficulty of serving the notice prescribed in sub-section (2) (a), or for any other cause the enquiry is likely to be delayed, and the immediate eviction of the person concerned is considered necessary in public interests, the Superintendent of Police may, pending the result of the enquiry, pass an ad interim order of eviction, provided that such order shall not remain in force for a period ~~more~~ exceeding one month."

II I do not know if the Mines Regulation provides for an appeal against the order of the Superintendent of Police. If it does not, I think that provision should now be made for an appeal to the District Magistrate against any order of the Superintendent of Police passed under Section 17.

III Subject to the above observations, I agree to the proposed Bill.

K.S. Chandrasekhara Aiyar, Esquire, B.A.,B.L.,
Deputy Secretary to the Government of
His Highness the Maharaja of Mysore,
General & Revenue Departments.

I have the honour to acknowledge with thanks the receipt of your letter No.J.2502 dated the 1st March 1905 with its enclosures.

2. I think that in view of the numerous amendments suggested it will be advisable to have a new Regulation instead of merely amending the existing one.

3. All the alterations which you have suggested appears to me very suitable and I ~~shall~~ will have a fresh draft prepared embodying them.

4. With regard to the word "undesirable" in Section 17 upon which you comment I would suggest omiting the word altogether; it does not seem to be of any use..

5.

5. In para 11 of your letter you comment as to the source from which the reward is to be paid. It is clear that the Magistrate must determine the value of the material confiscated before he can fix the reward and the only way to do this is by actual sale. I would therefore insert the word " sale" before value. In case of Gold there will be no difficulty. In case of other mining material the mines or the Mining Board must purchase the material and this I am sure they will always be willing to do in their own interests. We can first however consult them on the matter.

6. With regard to the remaining Sections(11 - 33) of the existing Regulation I shall deal with these separately before the final draft is taken into consideration. I may however point out that in the draft amendments to Sections 11 & 14 of the existing Regulation, of which a copy is enclosed in your letter I notice that the addition to Section 14 provides a penalty for infringement of any rule prescribed under Sub Section(2) of Section 11. As this latter is new, the said penalty will not apply to the existing Rules (181 - 183) which deal with Bribery as these Rules have been prescribed under the existing Section 11. To make the penalty applicable these Rules will have to be prescribed under Section 11 Sub Section (2). Is this the intention?

I have the honour to be,

Sir,

Your most obedient servant,

Secretary to Government,

Geological Department.

Dear Sir,

In reply to your D.O.letter No. P.5458/Legis.dated 26th March 1928 regarding the amendment of the Mysore Mines Regulation, I enclose herewith copy of a memorandum received from the Secretary of the Kolar Gold Field Mining Board which contains the views of the Board on the proposed amendment.

On a careful consideration of the matter I am disposed to agree generally with the observations made by the Board on the proposed changes. I should like to add that it is most essential that the name of the informant should not be disclosed by the Superintendent of Police.

I do not quite follow however the comment of the Board contained in paragraph numbered 6 on Clause 3 Sub Clause (1), First paragraph of the Bill. They probably presume that as the name of the informant would not be disclosed the "undesirable" could furnish no rebutting evidence other than evidence in proof of good character. But I do not

not think such a restriction need be specifically imposed though practically that would be the only course open to the "undesirable" in the trial before the District Superintendent of Police.

Yours sincerely,

S. Hiriannaiya, Esq., M.A., B.L.,

Inspector General of Police in Mysore,

Bangalore.

Sir,

I have the honor to refer to your letter No.C.23/25 dated 24/26th March inviting the views of the Mining Board on the proposed bill to further amend the Mysore Mines' Regulations. I am desired to express the Board's appreciation of the objects of the proposed amended bill and of the opportunity thus afforded enabling them to submit the following views and suggestions for favour of your consideration:--

The Board observe that:--

1 The material amendments are contained in clause 3 of the amended bill.

2. These amendments are in accord with the decisions arrived at in conference held in the K.G.F. Club on the 3rd August 1925. between the Board, the Inspector General of Police, the Deputy Commissioner and the District Magistrate and the District Superintendent of Police, except in the following particulars:--

(a) The recording of his reasons by the Superintendent of Police, as the first step, in Sub-clause(1) of clause 3, is a new provision. This was not discussed before the referred to conference, as it appears to have been accepted that the enquiry held by the District Superintendent of Police as a preliminary was a sufficient guarantee of the promises on which he acted.

(b) The issue of a previous notice to the "undesirable" calling upon him to show cause against eviction is also new although there was a reference made by Mr. Bowring at the Conference.

(c) The second proviso to clause 3 restricting the period of eviction in certain cases to six months does not seem to quite fully convey the opinion of the conference in the penultimate paragraph of the proceedings reading:--

" should not be for a period exceedings six months at a tim

In view of the above the Board would submit the following

following suggestions:--

Clause 3,Sub Clause(i) First paragraph

Suggestion. To omit the words"for reasons to be recorded in writing"

Reasons. 1. When recording the reasons,the D.S.P. will necessarily have to state on whose information he is acting.

2. If the recoding of reasons is referred to in the Regulation, the " undesirable" would, in the opinion of the Board,have the right to ask for and obtain the copy of reasons,unless such right is expressely denied by law,or the D.S.P. is allowed by law to claim privilege as in the case of offences.

3. To enact such a denial or to create such a privilege in the present Bill might in the opinion of the Board create unnecessary opposition to the Bill itself.

4. To disclose the informant!s name while recording the reasons would expose the informant to the risk of personal danger and would also undoubtly block further detection of cases.

5. The preliminary enquiry always held by the D.S.P. discloses the reasons and the District Magistrate and Government,if appealed to by the "undesirable" have power to examine the records of such previous enquiry.

6. The statement of objects and reasons accompanying the present Bill confines itself to the nature of the charge, that is the nature of the information. This will be disclosed in the form of Notice which Government will prescribe after the bill is passed into Law. It should be made clear in the form of the Notice that on the appearance of the person suspected of being an undesirable before the D.S.P. in respon to the "Show cause" notice the summary enquiry by the D.S.P. will be restricted to such evidence as the suspected"undesirable" might adduce in proof of his good character.

Clause 3, Sub Clause (i) Third paragraph.

Suggestion. To make clear the provision for renewal by more periods than one,the word"order" be altered to"orders",

Reason. In its present form the proviso is capable of

~~a plausible interpretation restricting the~~

of a plausible interpretation restricting the renewal to once only,which the Board feel is not the intention.

The suggested alteration will remove a possible doubt.

Clause 3,Sub-clause(2) Explanation(i)

Suggestion. To add the"words" or under S.13 of this Regulatio whereby it will read"All persons who have convictions(a) for the (b)for receiving mining material or(c)under section 13 of this Regulation."

Reason. Persons convicted under the Mines Regulation in respect of Mining material are equally if not more dangerous and undesirable.

Explanation (ii)

Suggestion. To omit the words" Underground gold thieves an " and to substitute the word "all"

Reason The remaining portion of the explanation is consi to be sufficiently comprehensive to include the deleted portion.

Explanation (iii)

This may be omitted as it is amply covered by explanation(ii)

Explanation (iv and V)

No remarks.

In placing the above views before you the Board have kept constantly in mind the proceedings of the confernece of July 1925 and trust that the suggestions will not be considered to deviate therefrom.

I am desired to state that should you desire to further discuss the matter the Board will be pleased to meet you either here or in Bangalore as may be most convenient to you.

I have the honor to be,

Sir,

Your most obedient servant,

Secretary.

Statement of Objects and Reasons.

It has been represented that the provisions of section 17 of the Mysore Mines Regulation, 1906, has been operating as a hardship from the point of view of the person to whom notice is given to quit the mining area, in as much as the term "undesirable" is not defined in the Regulation, no limit is laid down as to the period during which an order under the section should remain in force and no previous enquiry is prescribed nor any provision made to intimate to the undesirable ~~the~~ the nature of the charge against him. A resolution pointing out the said hardship and recommending its abrogation was moved in the Legislative Council Session of June 1925 by Mr.B.Narasinga Rao, who withdrew the resolution on the assurance of the Dewan President that all interests -- would be considered and final orders passed. The matter has been carefully considered by Government and it is proposed to amend section 17 as in the -- Bill annexed with a view to remove the hardship complained of.

The main provisions of the Bill are:-

(1) It provides for giving an opportunity to the undesirable to show cause against the notice to quit except in urgent cases.

(2) The order to quit will have effect in the case of a subject of His

Highness the Maharaja paying kandayam only for six months, subject to a further order if necessary after that period. (3) The expression 'undesirable ' is explained.

Section 35 (2) (b) of the Mysore Mines Regulation enables Government to invest the Kolar Gold Fields Sanitary Board with power to levy taxes, rates or cesses within its area, but contains no provision for empowering the Baard to write off sums due on account of any such taxes as irrecoverable. The amendment is intended to enable Government to give the necessary power to the Sanitary Board.

STATEMENT OF GENERAL PRINCIPLES OF THE BILL FURTHER TO AMEND THE MYSORE MINES REGULATION, 1906

==========

Under Section 17 of the Mysore Mines Regn. 1906, the Superintendent of Police, K.G.F. may by order in writing direct any person whose residence within such area as may be notified by Government from time to time is considered undesirable, to quit the said area within 24 hours and such person cannot thereafter remain at or re-enter the said area without the permission of that officer. But the expression "undesirable" is not defined, the nature of the charge is not required to be intimated to the person concerned, no previous inquiry is prescribed and no limit is laid down as to the period during which an order passed under the Section ~~should~~ may remain in force. A resolution moved in the Legislative Council in June 1925 brought prominently to notice the absence of these safe-guards and in pursuance of the assurance then given by Govt., the question has been carefully considered and it is proposed to amend the Section so as to remedy the defects referred to above as far as possible. Briefly, the amendment in view defines the classes of persons liable to be treated as undesirable for the purposes of this Section, and provides for an opportunity being given, ordinarily to such persons to show cause before they are ordered to quit, and for such orders having effect, in the case of subjects of His Highness the Maharaja paying kandayam, only for 6 months, in the first instance.

A Bill further to amend the Mysore Mines Regulation, 1906.

======

Whereas it is expedient further to amend the Mysore Mines Regulation, 1906; It is hereby enacted as follows:-

(1) This Regulation may be called the Mysore Mines (Amendment) Regulation, 192 . . .

(2) It shall come into force at once.

1. For Sec. 17 of the Regulation the following shall be substituted:-

"17 (1) The Superintendent of Police for the Kolar Gold Fields, may by an order direct any person, whose residence within such area as may be notified by the Govt. from time to time is considered undesirable, to quit the said area within twenty-four hours and such person shall not, after the lapse of the said time, remain in or re-enter that area without the permission of the said Superintendent of Police.

(2) Before making an order under Sub Sec.(1) the Superintendent of Police shall,

(a) cause a notice to be served on the person concerned, in the manner provided in Chapter VI of the Code of Criminal Procedure for the service of summons, indicating why his presence in the area specified

therein is considered undesirable and calling upon him to show cause within the period fixed in the notice why he should not be directed to quit the said area, and

(b) record his objection and the evidence in support of it, if any, he may offer.

(3) Where the person against whom an order is made under this Section after inquiry as provided in Sub Sec. (2) is a subject of H.H. the Maharaja owning land assessed to land revenue or paying any tax or rate to the Govt. or to any local authority, the order shall be in force for a period of six months only, provided that this period may be extended from time to time by further orders passed after fresh inquiry in conformity with the procedure laid down in sub Sec. (2)

(4) Nothing herein contained shall be deemed to invalidate an order made without inquiry as provided in sub section (2), where in the opinion of the Superintendent of Police, the interests of the Gold Mining industry demand the immediate removal of the person affected thereby.

(5) An order made under Sub Section (4) shall be in force for a period of one month only unless a further order in conformity with the procedure laid down in Sub Section (2) is sooner passed.

(6) Every order made under this Section shall be in writing and shall contain a statement of the reasons therefor.

(7) An order made under this section may be cancelled by the Superintendent of Police or by the District Magistrate.

Explanation :- No person shall be deemed to be an undesirable resident for the purposes of this section unless --

(a) he has been convicted previously of theft of or dishonestly receiving mining material or of an offence punishable under Sec. 13 of this Regulation, or

(b) there is grave suspicion of his complicity in committing theft of or dishonestly receiving or retaining stolen mining material, or

(c) he is a disorganiser of labour, or

(d) he has no ostensible means of of subsistence, or

(e) his presence on the K.G.F. may otherwise be a source of danger or loss to the Gold Mining industry.

2. To Sub section (2) of sec 35 of the Regn. the following clause shall be added:-

"(c) power to write off as irrecoverable, subject to such conditions as the Govt. may prescribe, sums due on account of any tax, rate or cess or the costs in recovering such tax, rate or cess.

Statement of General Principles of the Bill further to amend the Mysore Mines Regulation, 1906.

A statement of general principles of this Bill was placed before the R.A, at the last Dasara Session, and while approving of Clause 2 of the Bill, the Assembly desired that the class of undesirable persons liable to removal from the Mining Area should be clearly defined and that before passing an order directing such removal the person affected thereby should be given an opportunity to state his objection and also adduce evidence in support of it.

It was further suggested that the limit of six months to the currency of such an order in the first instance should apply not only to subjects of H.H. the Maharaja paying land-revenue but also to those who pay rates or taxes to any local authority in the State.

The Bill has now been revised in the light of the foregoing suggestions and appended to this statement.

The Non-Official Members of the
Legislative Council.

Dear Sir,

The attention of Government having been drawn, at the last session of the Legislativ Council, to the need for relaxing the ~~xxxx~~ rigour of the provisions of the Mines Regulation under which undesirable persons are removed from the K.G.F., I am desired to forward herewith for your information a copy of the Bill already framed to this end and placed before the R.A. in June last year. The Bill has not been proceeded with on account of the R.A. having been inclined to go further than Government are prepared to do in this direction. As the question has been revised again, Government will have no objection to introduce this Bill in the Legislative Council if the general opinion is that it would meet the reasonable requirements of the situation. ~~and~~ they will be glad to have your views in the matter.

Yours sincerely,

Sir,

Owing to my absence on leave and other causes your letter of the 2nd March 1905, No.925-S, in regard to the revised draft of the Mines Regulation, has only just been placed before me, and I hasten to reply to the query at the end of para 6 thereof.

2 The existing section 11 of the Regulation empowers Government to make rules "for the prevention of danger to human life or safety, for the reporting and investigation of accidents and for other matters connected with mining oper very doubtful if the prevention of bribery is a matter that, strictly speaking, has any connection with the carrying on of mining operations. It is in order to remove the doubt and to bring bribery under matters on which rules may be made, that it has been proposed to add a new sub-section (2) as in the draft Regulation sent to the Government of India. Its passing will validate the rules (181 to 183) to which you refer; and since these, I understand, already purport to have been made under section 11, I do not know that it is absolutely necessary to re-issue them under what will merely form a portion of the entire section. But perhaps it would be as well to do so in order to abviate all possible uncertainty.

Regret acknowledge that the Govt is very much obliged for the information. Abd 6/4/05

Secretary to the Government of
His Highness the Maharaja of Mysore
Geological Department.

Sir,

Adverting to your letter No. 928-S dated 3.3.05 forwarding copy of a letter from the Secretary to the Kolar Gold Field Mining Board, dated 11.2.05, in regard to certain proposals for amending the existing Mines Regulation III of 1897 and the draft Regulation embodying the amendments and calling for my opinion and suggestions thereon, I have the honor to state as follows:-

2. The Mines Regulation III of 1897 was passed, as the preamble to the Regulation

Regulation set forth, to make special provision (1) to prevent the theft of mining materials in the Territories of Mysore, (2) to prevent and punish offences of receiving and disposing of stolen mining materials (3) for preventing danger to human life and safety, and (4) for the sanitation of the mines and their neighbourhood. The 1st ~~two~~ objects relate to the protection of the financial interests of the Companies working on the field, the 3rd applies to the protection of the men who are employed or engaged in the operations connected with the process of the extraction of gold, and the last concerns the municipal welfare of all who either voluntarily or by force of circumstances elect to reside on the Fields.

3. The Regulation has been at work for the past 7 years, and it is now time to

to rectify or amend it in such a manner as to bring it into line with the growing needs of the Industry.

4. It is a matter of common knowledge that notwithstanding the improved Police organisation, both in strength and efficiency, theft and illicit traffic in mine gold flourish to a remarkable extent. This I say without casting any reflections on the Police. It is therefore reasonable that the companies should be protected from this incessant drain. The interests of Government are equally involved with those of the shareholders in this matter.

5. Experience has taught that heavy punishment in gold cases and preventive measures to keep out habitual bad characters have made no sensible impression on the quantum of gold thefts. The reason is obvious. The present provisions of the Regulation do not reach the

the important class of men dealing in gold and who act in collusion with those who pilfer gold from the mines.

6. The further restriction of public rights and liberties in any particular area beyond what the general law of the land lays down, may, no doubt, work some hardship to the public at large residing in that particular area. But special provisions to protect and safe-guard the interests of large works of the nature of mining operations which afford livelihood to the mass of the population and contribute to the revenues of the State, cannot be viewed as repressive or arbitrary if they are reasonable and at the same time limited in their operation to the small area absolutely needing protection. The Gold Fields and its neighbourhood consists of a floating population

population of persons from all parts of the country who voluntarily reside there for labor or some profitable business which the mines afford. They have no settled abode or vested interests in land to claim all the privileges of ordinary citizenship. If their intentions are honest they should not grudge their freedom of action being abridged to a certain extent for the prosperity of the very source of their livelihood.

7. Para 3 of the letter of the Secretary to the Mining Board states that they do not wish that the area now under the operation of the Regulation should be extended. I congratulate the Board on this sound view and I should be the last person to recommend any such extension. The Mining Board only propose certain amendments as the provisions of the Regulation now in force, have been

been found wanting to secure fully the objects which the Government had in view in passing the Regulation in 1897.

8. It stands to reason that restriction should be placed on gold trade in the centre of its production. The nature of the industry is such that gold is produced in an open and unprotected manner. and it cannot be otherwise. Now, that the methods of converting auriferous quarty into commercial gold are within the knowledge of every Cooly on the field boys of tender age included, the necessity for bringing unwrought gold under the operation of the Regulation is found to be imperative It is an open secret that receivers are hovering over the fields in the guise of jewellers. gold-smiths, gold-dealers,

hawkers

hawkers and pedlars and ostensible visitors of friends and relations on the field Unless restrictions are placed on these classes of men by requiring that their transactions and movements should be open to the scrutiny and supervision of the Public authorities there is no likelihood of an abatement in the volume of thefts of mine gold.

9. The Mines Regulation as it now stands takes cognizance of the gold-smith only This is a class quite distinct from the dealer and is only auxiliary to the latter. The gold- smith generally works for the towcar, the gold-dealer. All gold transactions are for the most part carried on through the latter, but the present Regulation does not touch him

him. He need not keep any books nor account for the unwrought gold found in his possession unless it can be proved to be mine-gold after an elaborate process of chemical analysis costing time and labor and resulting some-times in loss to the owner by di-mumution in substance even when no characteristics of mine-gold are found therein. As he carries on a profitable business in the mining area he may reasonably be called upon to submit to certain restrictions, viz, to take out a license, maintain ac-counts &c.,

10. Section 12 of the draft amended Regulation throws the burden of proving lawful possession even on a private person owning unwrought gold in the mining

mining area, who is not a dealer in gold. This may involve a certain amount of hardship to private individuals, but it is necessary for the protection of the larger interests of the mining Industry and should not be grudged by people who make a profitable living on the Fields.

11. The restriction which the Mining Board desire to impose on the tenants of the huts belonging to the several Companies, by making them as well as those who are found in such huts, liable to account for the unwrought gold or mining material seized in such huts, is a legitimate demand. The Police have hitherto found it difficult to fix the responsibility on any one, owing to the dodges and subterfuges practised by the occupants of the huts

to

to evade the law.

12. The issue of licenses proposed for hawkers and pedlars is very desirable as these persons haunt the mines very often for buying illicit gold.

13. As regards the proposal to grant rewards to informants, I concur with the opinion of the Mining Board and Mr. Thomas, the District Superintendent of Police, that the measure would be attended with useful results and lead to better detection of gold thefts. It has a precedent in similar provision made in the Opium, Excise and Forest Regu-lations. If it is deemed necessary to limit the discretion of the Magistrate, it may be ordered that all rewards exceeding a certain sum in any one case should be subject to the approval

of

of the District Magistrate.

14. In the light of the above observations I consider that the additional provisions embodied in the draft amended Regulation are not conceived in harsher lines than the necessities of the case demand.

3. The newly added definition of "Mining Block" and the amended definition of "Mines" are clearly worded and are consistent with the powers proposed to be conferred on Mine Superintendents for evicting after notice, strangers and unemployed men, under Section 18.

In Section 14 the words "not being a female" appear to be unnecessary, as the punishment of whipping is governed by Section 393 of the Criminal Procedure Code which exempts certain other persons also in addition to females, from the punishment

punishment of whipping.

16. One other important omission strikes me in the Regulation, that is, the power to levy any tax or cess within the Sanitary Board area. The old Mohatarfa rules are quite un-suited to the conditions prevailing on the Gold Fields and their vicinity, and it is necessary that Government should reserve to itself the power to levy any rate or tax within the area governed by the Regulation the want of such a provision has been felt in the case of Robertsonpet and I was perforce obliged to recommend that the usual Moha-

tarfa should be levied

17. I herewith forward copy of

the

the opinion of the District Superintendent
of Police as desired by you in para 4
of your letter under reply.

Dear Mr Patterson Chelf,

With reference to the proposed amendment of the Liquor Regulation Act which has asked for a form of Hotel Traders' License when the papers were sent up to the Dewan this detail had been overlooked.

There is a form of license which would in every way be suitable to the hotel I am interested (Western Australian Licensing Act 1904 Form 4 page 188 Schedule 38).

The important point is not the license itself, but the rules regarding registers details of purchases and sales and other similar checks and restrictions which the holders of Hotel licenses will be

Cancelled & Sheros.

The form & license ridiculed above would be quite enough & include in the draft amendment, provided Sikhs

The keeping of ~~Registers~~ registers &c as elsewhere laid down in the draft amendment

2 The Regional Government would have power & frame its own Rules or bye laws ~~Registers~~ enjoining the keeping of such registers without reference & the Government of India

If the opposite is the case, then it would be necessary & send up with the draft Amendment a form of Register & be maintained by Licensed dealers In which find suitable for a page 189 of the book above alluded & (Schedule 40).

I think that it would be quite sufficient & send up only the form of license (Schedule 38). It is a

simple form and is so comprehensive that it does not tie us down in any way as regards whatever conditions we may choose to adopt to it and that is a great advantage

With you kindly forward the book sent herewith & Mr Whitelaw spoke with your Director on the matter & has seen the Boring, about it and he is so anxious to make any further reference to him

Yours sincerely

Edgar Thomas

N O T E.

As there is reason to think that a good deal of misconception exists in regard to the scope and objects of the revised Mines Regulation recently promulgated by the Mysore Government, it seems desirable to offer a few words of explanation on the subject.

2. In the first place it may be stated that this is no new regulation but only a consolidated amendment of a regulation that has been in existence for the past 9 years. The earlier Mines Regulation, III of 1897, which the new Regulation supersedes, was passed, as its preamble sets forth, to make special provision (1) to prevent the theft of mining materials in Mysore, (2) to prevent and punish the offence of receiving and disposing of stolen mining materials, (3) to make provision for preventing danger to human life or safety, and (4) for the sanitation of mines and their neighbourhood. The last two objects need not be further adverted to, as the necessity for securing them has not been questioned, and the provisions contained in the new Regulation on these points are to all intents and purposes a reproduction of those contained in the earlier Regulation.

3. The necessity for the legislation undertaken

in 1897 in regard to preventing the theft of, and the illicit traffic in, mining materials, ought not to require elaborate explanation for those conversant with the conditions of the Gold Mining industry in the Kolar Gold Fields or elsewhere, and the nature of the floating population, consisting of persons from all parts of the country, which such an industry is sure to attract to the locality where it flourishes.

4. The local extent of the Regulation of 1897, as of that of 1906, was stated to comprise the whole of the Mysore State; but the provisions in regard to the protection of Mining property were only intended to apply, just as in the case of the new Regulation, to such local areas as were to be specially notified for the purpose. It may be added that the area to which the special legislation of 1897 was extended was a circumscribed tract round the Kolar Gold Fields, and that it is to this very tract that the revised Regulation has also been extended recently. There is not the least likelihood of the area of its operation being enlarged beyond absolute requirements, viz., the mines proper and their immediate neighbourhood.

No 158

Mysore Geological Department.

To the Dewan of Mysore for orders.

Subject - Amendment of the Mysore Mines Regulation III of 1897.

In accordance with your instructions on my memo No. 111, dated the 14th February 1905, I prepared a draft of an amended Mines Regulation to replace sections 1 to 10 of the existing Regulation embodying the suggestions and amendments proposed in the letter of February 11th 1905 from the Kolar Gold Field Mining Board.

This draft (Draft I) I forwarded to Mr. Chandrasekhara Aiyar Deputy Secretary, for favour of his opinions and suggestions and received the same back from him with his letter No. J. 2502 of the 1st of March 1905.

I have adopted the alterations and suggestions made by Mr. Chandrasekhara Aiyar and embodied them in Draft II a copy of which is submitted herewith for further action, in which the new portions are underlined in red ink.

I have also forwarded copies of this Draft II to the Deputy Commissioner of Kolar, the Superintendent of Police, Kolar Gold Field, and to the Kolar Gold Field Mining Board and have received from them the marginally noted letters expressing approval of the proposed measure.

The Deputy Commissioner, Mr. Puttanna Chetty, in his letter No. C 536 of April 1905 discusses the proposed measure at some length and adduces various strong reasons as to the necessity for and desirability of further legislation of a specially restrictive character within a limited area surrounding the Kolar Gold Field in order to successfully cope with the large and growing trade in gold and auriferous material stolen from the Kolar mines and in para 14 of his letter he sums up by saying -

"In the light of the above observations I consider that the additional provisions embodied in the draft amended Regulation are not conceived in harsher lines than the necessities of the case demand".

In paras 15 and 16 of the same letter the Deputy Commissioner himself proposes certain amendments which may, I think, be finally dealt with in the Legislative Department.

So far then we have the request of the Kolar Gold Field Mining Board for further legislation with suggestions as to points of detail upon which such legislation is required and with a statement of the reasons which have induced the Board to prefer their request. We have also the approval of the Deputy Commissioner of Kolar, the Superintendent of Police of the Kolar Gold Field and the Kolar Gold Field Mining Board of Draft II, which I have drawn up in consultation with Mr. Chandrasekhara Aiyar as a revised measure to be substituted for the first 20 sections of the existing Regulation.

It remains now for me to state my own opinion in the matter and to set forth some explanation of the various clauses which have been embodied in Draft II after which, I presume, the draft will

be circulated to the Council and finally dealt with in the Legislative Department where a formal statement of objects and reasons will be prepared for submission to the Government of India.

I entirely agree with the Mining Board and with the Deputy Commissioner and Superintendent of Police as to the need for further legislation for the protection of mining property. My own experience during the past seven years has shown me that there is a very large leakage of gold from the Kolar Field and I am convinced that the leakage will increase unless sufficiently repressive measures can be found to check it. The first step obviously is to render the removal of gold from the mining area as difficult as possible and it is the object of the proposed amended Regulation to effect this. The existing Regulation has undoubtedly proved useful in that it prohibits the possession within the mining area, of such obvious mining materials as sponge gold, amalgam, auriferous quartz &c. and that it provides for the licensing of goldsmiths. It fails however as soon as any of these auriferous materials have been converted into bar gold and the result is that the

gold thieves are careful now to convert the stolen material, by cleaning and melting, into bar gold as soon as possible. Once this has been done it requires a long, tedious and expensive analysis to show that such bar gold is mining property and even when this has been done the evidence as to the character of the gold, which is of a very technical nature, frequently fails to appeal with sufficient weight to the Court. To remedy this grave defect the amended Regulation proposes to make the possession of bar gold illegal within the mining area except under cover of a license. This will go a long way towards making the illicit traffic in gold more difficult and cannot in itself be regarded as an unduly repressive measure. There is no good reason why persons residing within the mining area should possess or deal with bar gold - or more generally with "unwrought gold" which is the term used in Draft II - unless such person is either a goldsmith or a gold dealer and these latter, if they wish so to deal, can do so under a license and if they elect

to reside within the mining area they can have no reasonable grounds for objecting to take out a license and to keep proper accounts and registers.

In thus restricting the possession of, and dealing with, unwrought gold we shall only be following the example set by other countries where such special restrictions have been adopted side by side with, and in addition to, ordinary British Law. Such countries are the Transvaal, and some of the Australian colonies.

In the Transvaal the law at present in force is No. XV of 1898 and I enclose an extract from the Draft Ordinance which is now to be introduced into the Transvaal Legislative Council in supersession thereof and which covers practically the same ground (See enclsore 1).

In Western Australia the Mining Act of 1904 - Part IX - also prohibits the dealing in gold except under license (see copy enclosed, enclosure 2) and the Bill ~~institutes~~ intituled an Act to further amend the Police Act, 1902, ~~which~~ provides further restrictions as to possession (see copy enclosed, enclosure 3). In

Victoria "An Act to license gold buyers" - No. 1780 - prohibits the dealing in unwrought gold except under license (see copy enclosure 4).

There is thus plenty of precedent in English speaking countries for restricting the possession of and dealing in "unwrought gold" and these restrictions apply to the whole area of the countries concerned, whereas in Mysore we are at present restricting the legislation to a small area surrounding the Kolar Gold Field the whole industry of which is essentially dependent on the gold mining industry.

The actual restrictions proposed are contained in sections 7 to 12 inclusive of Draft II and include nothing for which this is not a precedent elsewhere and nothing which can be considered as unduly hampering any legitimate trade which may exist in the mining area.

The next important point has reference to the liability of persons in whose possession or in

whose premises unwrought gold or mining materials are found and the clauses chiefly affecting this are to be found in sections 16 and 17 of Draft II

These clauses are of the utmost importance and without them the sections which prohibit the possession of unwrought gold and mining materials must remain largely imperative as is at present the case with the existing Regulation.

On this point the opinion of the Deputy Commissioner of Kolar, as expressed in paras 6 and 11 of his letter No C 536 of April 1905, is most valuable and it is well known that mining materials are frequently found in the huts of coolies who can evade the law with impunity by simply denying possession. Sections 16 and 17 of Draft II provide in some measure against this undesirable state of affairs by permitting the Magistrate to throw the burden of proof upon the person or persons who are reasonably suspected of possessing or dealing in prohibited materials. The mere fact that the Court is empowered to adopt such a course, even though the power is never

exercised except in flagrant cases, will undoubtedly form a very efficient safeguard and will clear the huts of the mining coolies of most of those illicit materials which they are at present known to contain and which are housed there almost with impunity. Equally stringent measures have been found necessary elsewhere as shown by sections 2 to 5 inclusive of the "Act to further amend the Police Act, 1892" of Western Australia (enclosure 3)

Section 16 of Draft II aims at the weeding out from the mine area of the numerous loafers, hud-naches and undesirable characters who have no legitimate occupation and who are for the most part well known to the Police. The huts on the mining blocks and the Cooly Colonies on Government land are put for the accommodation of those engaged in mining operations. It is difficult enough to find decent accommodation for all of these without having to provide for a number of persons who are not required in connection with legitimate mining work and who are pro-

bably engaged in crime. That such persons should be liable to be ordered off these premises is a most reasonable request to which, I think, no objection can be offered.

Sections 19, 21 and 22 of Draft II are, I think, all very reasonable and do not call for special comment.

In conclusion I trust that Government will give this matter their most favourable consideration and will obtain early sanction from the Government of India for the introduction of the amended Regulation. The amendments proposed have been very carefully considered and have the approval of those most intimately acquainted with the mines, both official and non-official, the need for such special legislation is a convincing one and the present loss to the mining Companies and to Government is very considerable and is likely to increase unless checked, the area to which it is to be restricted is very small and there is ample precedent for all that has been asked for in other countries in which British Law prevails and where the persons directly affected are themselves British subjects.

Summary Powers under the A.A regarding Statement of General Principles of the Rule Further to amend the Lawyers Rules

Mr. V. Narasinga Rao

The enquiries should be entrusted to the Special Magistrate and not to the Police

Even though the Magisterial enquiry might be summary an appeal to the Civil Court should be provided to test the order in the Civil Court. He had no objection if an appeal was provided to the Sessions Court instead of to the Civil Court.

Cl.(3) provides for a continuous punishment which was not justifiable

Clause (c) of the definition of the term 'undesirable' should be removed and only persons who were convicted more than once should be included in the definition

Mr. K. Subbaraya.

Clauses (c) and (e) of the definition of undesirable were harsh and should be removed.

Mr. D.S. Malaviya

The power should not be an appeal to the Civil Court might be provided Second Member No objection to entrust the enquiry to D.M. but it is not possible to provide for an appeal to the Executive as he said he is even if the power was transferred to the Magistrate there would be certain grades of objections which the Civil Court should hear & thus over.

The D.A. of Police explained how the enquiry cannot be entrusted to Magistrate and explained how injustice is prevented by allowing an appeal to the Civil Court. It was generally agreed by Mr. V. Narasinga Rao who suggested that the Civil Court first the consent of the accused on the Revised of the Police diaries alone.

powers proposed in the Bill to be exercised by them unless previous sanction for legislation

In winding up the Member said that except perhaps one or two small changes the Govt could not accept any of the suggestions made by any of the Members.

Mr. Bhagamane Deve Gowda.

In Sub Section 1 the power may be vested in the Special Magistrate instead of the D.S.P. so as to allow the proceedings to be more legal.

(2) Before making an order under sub-section (1) the Superintendent of Police shall

(a) cause a notice to be served on the person concerned, in the manner provided in Chapter VI of the Code of Criminal Procedure for the service of summons, indicating why his presence in the area specified therein is considered undesirable and calling upon him to show cause within the period fixed in the notice why he should not be directed to quit the said area, and

(b) record his objection and the evidence in support of it, if any, he may offer.

Mr. Gurmaj Rao:- Bolar
Suggests the substitution of the following:-

(2) Before making an order under subsection (1) the Magistrate shall

(a) cause a notice to be served on the person concerned, in the manner provided in chapter VI of the Code of Criminal Procedure for the service of summons, indicating why his presence in the area specified therein is considered undesirable and calling upon him to show cause within the period fixed in the notice why he should not be directed to quit the said area, and

(b) record his objection and the evidence in support of it, if any, he may offer.

(3) Where the person against whom an order is made under this section after inquiry as provided in sub-section (2) is a subject of His Highness the Maharaja owning land assessed to land revenue or paying any tax or rate to the Government or to any local authority, the order shall be in force for a period of six months only provided that this period may be extended from time to time by further orders passed after fresh inquiry in conformity with the procedure laid down in sub-section (2).

Dr. Gurmaji Rao - Kolar
Suggests the substitution of the following:-

(3) Where the person against whom an order is made under this section after enquiry as provided in such section (2) considered undesirable and if he is a subject of H.H. the Maharaja owning land assessed to Land Revenue or paying any tax or rate to the Government or to any local authority, the order shall be in force for a period of six months only provided that this period may be extended from time to time ~~ka~~ by further orders passed after fresh enquiry in conformity with the procedure laid down in sub section (2)

70 69

(4) Nothing herein contained shall be deemed to invalidate an order made without inquiry as provided in sub-section (2) where, in the opinion of the Superintendent of Police, the interests of the Gold Mining Industry demand the immediate removal of the person affected thereby.

Mr. Gurumaji Rao. Kolar

Suggests the substitution of the following:-

(4) Every order made under this section shall be in writing and shall contain a statement of the reasons thereafter.

Rajasabhushana
K.R.Srinivasiengar,

(Vide sub-clause 5).

(5). An order made under sub-section (4) shall be in force for a period of one month only unless a further order in conformity with the procedure laid down in sub-section (2) is sooner passed.

Sri Giri Raj Reddy, Kolar suggests the substitution of the following.

(5) An order made under this section shall be appealable to the High Court by the aggrieved party.

Rajasabhushana
K.R.Srinivasiengar.

Suggests that sub-clauses(4)and(5)may be modified as follows:-

"Where owing to the difficulty of serving the notice prescribed in sub section (2) (a) or for any other cause, the enquiry is likely to be delayed and the immediate eviction of the person concerned is considered necessary in public interests, the Superintendent of Police may, pending the result of the enquiry, pass an ad interim order of eviction, provided that such order shall not remain in force for a period exceeding one month".

(7) An order made under this section may be cancelled by the Superintendent of Police or by the District Magistrate.

Explanation.-No person shall be deemed to be an undesirable resident for the purpose of this section unless--

(a) He has been previously convicted of —
  (i) an offence punishable under Section 13 of this Regulation, or
  (ii) theft of mining material or dishonestly receiving or retaining stolen mining material, or

(b) There is grave suspicion of his complicity in committing theft of or dishonestly receiving or retaining stolen mining material, or

(c) He is a disorganiser of labour, or

(d) He has no ostensible means of subsistence, or

(e) His presence on the Kolar Gold Fields may otherwise be a source of danger or loss to the Gold Mining Industry."

Sri Gurumaji Rao - Kolar
Suggests the substitution of the following

Explanation:-

No person shall be deemed to be an undesirable resident for the purpose of this section unless-

(a) he has been previously convicted of —

(i) an offence punishable under section 13 of this Regulation, or

(ii) Theft of mining material or dishonestly receiving or retaining stolen mining material, or

(b) There is grave suspicion of his complicity in comitting theft or dishonestly receiving or retaining stolen mining material, or

(c) he is a known disorganiser of labour, or

(d) he has no ostansible means of subsistance, or

(e) his presence on the Kolar Gold Fields may otherwise be a source of danger or loss to the gold mining industry".

~~(2) The addition to sub section (2) of section 88 of the Regulation may be retained.~~

Mr. Bagamane Deve Gowda.

In Sub cluae(a) (ii) the theft or detention of Mining Material may be very insignificant or of no value. It may therefore be provided to apply only to the materials of value.

In cluae (c) there must be scope for considering the intention of the man who may be called "a disorganiser of labour".

In clause (e) the word "substantial" may be inserted before the word "loss".

2. To sub-section (2) of Section 35 of the Regulation the following clause shall be added:-

"(c) Power to write off as irrecoverable, subject to such conditions as the Government may prescribe, sums due on account of any tax, rate or cess or the costs in recovering such tax, rate or cess."

Mr Girnaji Rao - below. "may be retained".

GENERAL.

Mr. K.T.Satyanarayana Setty.

The Bill has to be placed again before R.A.

Mr. Rutherford.

I can see little that can be objected to in the proposed Bill by any one who has honest intentions. The Bill throws too much responsibility in the hands of one man i.e. the Superintendent of Police, especially as he is also given jurisdiction over such persons as come under (c) and (e) of the explanation which appear to be matters for dealing with by the Special Magistrate in conjunction with the Police and the Mining Authorities.

The Bill is reasonable and relaxes the vigour of the original Regulation.

Mr. Bagamane Deve Gowda.

Unless the Bill is altered in the manner suggested it will not in my opinion satisfactorily improve the provisions of the original bill, so as to give necessary help to the public, the object with which the amendment was sought.

Mr. K.R.Srinivasiengar.

As the bill is now drafted a final order of eviction can be passed by the Superintendent of Police against an undesirable for a period of one month without giving him an apportuni to show cause against the order. While recognising the need for prompt action to evict a person from the Mining Are in public interests, I consider that any such action must be only in the form of an ad-interim order subject to any final orders that may be caused later after proper enquiry, and that no final order of eviction for however a short period should be passed without an enquiry , as which is one of the elementary principles of justice that no man should be condemned exparte without notice .

Subject to the observations made by me I agree to the proposed bill.

General continued.

Mr. K.Chengalaraya Reddy.

The Section under consideration is one of emergency type. It exists there more owing to over-sensitive and mistaken solicitude for the welfare of the Mining Companies than for any other reason. I am strongly opposed to the existence of the present section.

But if the Government persists in holding the view that the section should remain, I may state that the proposed amendment is not sufficient to mitigate the rigour of the section.

It ought to be made clear beyonf doubt who is "an undesirable perso That phrase ought to be exhaustively defined. The use of the comprehensive word " otherwise", will have the effect of leaving the definition very indefinite and vague. Further the area in which this section will be operative must be greatly minimised confining it only to "danger-zones" .

And finally people owning lands building or any other property in the area or who have any other substantial stake in the said area,must be totally excluded from the scope of this section, since in all such cases the ordinary law of the land will be quite sufficient to book them when they go wrong and since an order under this section to quit within 24 hours os the issue of the order will act as a tremendous hardship in all such cases.

No.20. Amendment of Sec.17 of the Mysore Mines Regn.1906.

by

Mr.M.Narasinga Rao, K.G.F.

" K.Ramegowda, Bowringpet Taluk

The District Superintendent of Police K.G.O.F. is empowered to summarily evict undesirable persons on the K.G.F., if he thinks that a person is a non-employee in the said area. There is thus scope for eviction of ordinary ryots paying kandayam to Govt. who are residents of the villages in the K.G.F. area. This is very prejudicial to the ryots classes of residents. It is prayed that Sec.17 of the Mines Regn. may be suitably amended.

W. K. Ramegowda

The person to be evicted should be given a hearing before a Law Officer, before steps are taken to evict him.

Remarks by the Dy.Commr.

I am not in favour of the suggested abrogation. The rule is worked with great consideration and an appeal lies to the District Magistrate.

This is a special power which has been given to the Supdt. in view of the peculiar conditions of the Kolar Field. The power of the Supdt. is only to give a notice to quit the place & failure to do so is punishable only after an enquiry by the Magistrate. Against the issue of the notice itself, there is an appeal to the District Magistrate.

Memorandum of subjects proposed for discussion in the Birthday Session of the Representative Assembly of the Kolar District. Kolar.
For the Birthday Session of J u n e 1925.

No. 12a

Subject: Amendment of Section 17 of the Mysore Mines Regulation.

Summary of representation.

Section 17 of the Mysore Mines Regulation authorises the District Superintendent of Police to issue notice to any person residing in the Sanitary Board area to quit the said area within 24 hours. This has been causing great hardship for kandayam paying ryots and rate-payers as they also come within the operation of the said Section. Therefore it is prayed that the said Section may be suitably amended exempting the kandayam paying ryots and rate-payers from the operation of the said section.

Remarks by the Deputy Commissioner.

I do not consider any amendment necessary. I am personally scrutinising every case which is brought up in appeal before me and care is taken to work the provision with due consideration. It is a reserve power which is quite necessary, for minimising traffic in illicit gold.

SUBJECT NO.

Amendment of Section 17 of the Mysore Mines Regulation.

NAME OF MEMBER.

Mr. M. Narasinga Rao of Kolar Gold Fields, Sanitary Board area.

SUMMARY OF REPRESENTATION.

Section 17 of the Mysore Mines Regulation authorises the District Superintendent of Police to issue notice to any person residing in the Sanitary Board area to quit the said area within 24 hours. This has been causing great hardship for kandayam paying ryots and ratepayers as they also come within the operation of the said Section. Therefore it is prayed that the said Section may be suitably amended exempting the kandayam paying ryots and ratepayers from the operation of the said section.

SECRETARIAT NOTE.

--O):(O--

Under Section 17 of the Mines Regulation, the Superintendent of Police, Kolar Gold Fields, may, by order in writing, direct any person considered undesirable to quit the area notified by Government (from time to time) such area is not conterminous with the Sanitary Board areas as mentioned in the representation. Kind attention is also invited to Section 4 of the Mines Regulation which lays down that the provisions of sections 5 to 20 shall not apply to any local area unless extended thereto, by the Government by means of a Gazette Notification. In the Government Order of 11th December 1915 the operation of Section 17 has been extended to certain areas round the mines, as it was considered necessary to evict the undesirables who would take up their abode in the outskirts of the mines, once they were served with notices to quit from the mines.

13. The view now held by the Courts is, that the Penal Code definition of criminal trespass does not apply to the case of an unemployed person, who, having been warned off Mine property, is again without reasonable cause found thereon It has been ruled that the necessary element of annoyance is wanting. This view of the law operates very prejudicially in a Mining Camp. The Police can lay hand at any moment on "vagabond undesirables" frequently all parts of the Mine - particularly the huts and Camps of the Mine employees. These Camps are erected for their labourers by the Companies, who keep them under supervision and allot them to particular -- occupants. They are in close proximity to the Mills, the Shafts, Storehouses, &c., and the pathways from the Camps to the main roads pass through the busiest parts of the -- various Mines, where valuable property, including rich quartz, is being constantly and openly handled. It seems an anomaly that under these circumstances the Superintendent of a Mine should not be empowered to prevent any but authorised persons from frequenting any part of the Mines including the Camp. Such a state of things would not be tolerated in any large Government works.

Tresspass on Mines and Mining Blocks to be made criminal.

The only remedy now open is to take proceedings under the security Sections of the Code of Criminal Procedure, but even in towns and rural districts this procedure is cumbrous and difficult to work. How much more so in a Mining Camp, which is the resort of bad characters from distant parts; - where there is no settled population with vested interests in houses or land; where each hut is a temporary abode, and no one knows or cares what his neighbour is doing or whence he

$\frac{1}{92}$

comes. Under such conditions evidence of character cannot possibly be obtained to the satisfaction of a court. All possible means have been tried to rid the Mines of known bad characters, but they have failed, and nothing will serve but a section making tresspass criminal on the part of an unemployed person who has been warned off Mine property by the Superintendent of the Mine or other duly authorised Mine Officer. A -- Section should be framed to meet these very necessary requirements. There are also coolie colonies off the Mining Blocks to which similar legislation ought to be extended. These colonies are the resort of questionable characters of all classes who find it convenient to lodge near valuable Mine property in haunts where they can easily conceal their identity. The area to which this section should be extended under Section 3 of the Act would include only the Mining blocks, Government buildings, and the coolie colonies.
